EP Lighting, Inc.

UV-KLEEN™ Series by EP Lighting, Inc. USA

UV-KLEEN™ is:

- FDA registered and patented
- Only UV-C product tested on Coronavirus with 99.99% kill rate
- Made in the USA

UV-KLEEN™ replaces excessive use of:

- Liquid Sterilization such as H_2O_2, bleach and chlorine
- Gaseous sterilization such as Ethylene oxide, Formaldehyde, NO_2

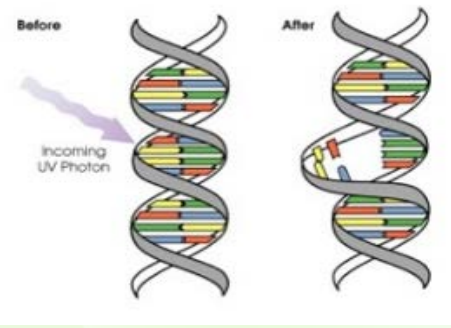
The UV-KLEEN™ will:

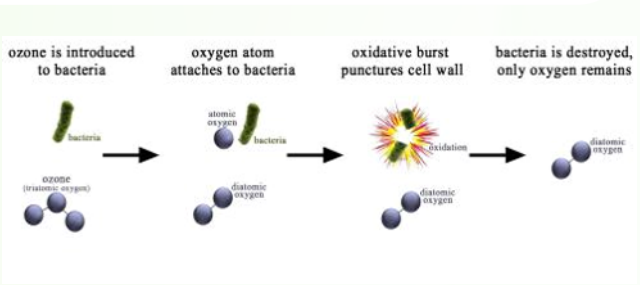
- Sterilize air and surfaces up to 99.99% in less than 1 min
- Reduce the downtime due to sterilization with manual labor
- Reduce hospital-borne diseases
- Not degrade the quality of plastic or other polymers
- Reduce operational maintenance costs
- Provide custom solutions to customer needs
- Increase return on your investment and build back customer confidence in your business

The UV- KLEEN™ is tested to kill bacteria, virus, and spores. Tested to kill coronavirus up to 99% in less than 1 min

The UV-KLEEN™ kills the pathogens by:

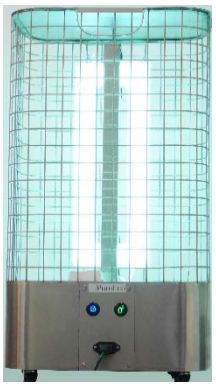
Photolysis: breaks the molecular bond and rearrange DNA
Oxidation: rips the electrons in the pathogens and breaks the cellular walls





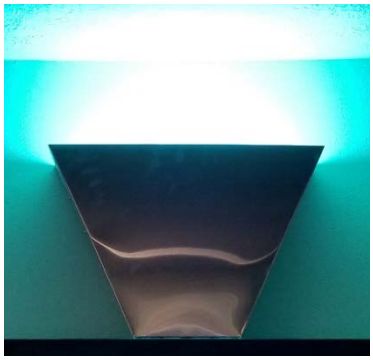
Outperforms the competition by at least 35%. 3-year Warranty with reliable performance

Product Line: Various form factors and sizes based on the customer needs. Custom Solutions are also available



Mobile Unit

- Powerful irradiation with controlled Ozone
- Can sterilize a large room in under 5 minutes
- Compact design, light weight and portable from room to room
- Hospitals, transportation, function halls and religious centers



RoomVac Unit

- Stationary unit with forced ventilation to clean the air
- Two 106CFM fans to air exchange a 20x20x8' room under 15 mins
- Affordable solution for small to mid-sized rooms
- Clinics, shops, office rooms, classrooms, and restaurants

DeskVac Unit

- Small personal sterilization unit for desks
- Slidable door to disinfect surfaces
- One 106CFM quiet operating fan
- Tabletops, kitchens, office desk and conference rooms

Quality Control and Durability

EP Lighting's UV-KLEEN™ product line meets the international safety standards: UL, ETL, CE, RoHS, CCC. Each manufactured unit is tested for durability, highpot and other quality control standards.

Recommended Operating Times (300w)

Room Size (Sq ft)	Sterilization time
Under 144	3 min
144-324	4 min
324-400	5 min
400-500	7 min
500-1000	15 min
1000-1600	20 min
1600-2100	30 min
